To decide on a training program; if your dog shows aggressive tendencies, choose Private Lessons. If your dog is friendly, then ask yourself if you want to be involved in the training or not. If not, because you have a busy work and family lifestyle, then choose a Board and Train or Day Training program. We will train your dog for you and then train you on how to keep things going well. If you want to learn how to train your dog, then choose either Private Lessons or Group Classes. **To start your dog's transformation, give us a call now at 734-634-4152.**

Which program is right for me and my dog?

Ask yourself:

1. Do I have the time and patience to do homework with my dog minimally twice a day for 20 minutes, five days a week? If so, then **In Home lessons, Private Lessons at MDT or Group Classes** would be a good fit for you.
2. If your time is limited due to family and/or work responsibilities, then it would make more sense for us to train your dog in our **Day Training or Board and Train programs**. Then we will train you how to enjoy your new well behaved dog.
3. Does my dog show aggressive tendencies toward other dogs and/or people? **If so, then Private Lessons will be best.**
